

# **WORLD ROSARY DAY 2024 - Over 800 contributions (videos , images , posters) from 71 Countries**

Dear Participants,

I am delighted to announce that in the three weeks following the *World Rosary Day*, we have received over 800 files – between videos, images and posters featuring the celebrations that took place globally on the **7th October 2024**.

To provide just a mere impression of the variety of locations involved, of the devotion displayed, and the creativity that was deployed, it would be enough to look at this “mosaic” of selected posters that had been crafted to announce the event.

Such exceptional response, testifies to the enthusiasm and intensity with which our common day of prayer was embraced and celebrated. We shall relish its spiritual fruits throughout the Holy Year.

We now have collected more than sufficient visuals to create an official documentary about this unique experience; and while the film will necessarily include a limited choice of footage, most of the material will be edited and published in the website over the course of the next months.

The decision to repeat the **World Rosary Day in 2025**, near the conclusion of the Jubilee, as well as the great wealth of information and imagery that need to be classified and stored, currently requires an upgrade of the website.

Thank you again for your commitment and passion.

Sincerely

Umberto Angeloni

(of the WRD Action Team)
